

This map would make Mr. Elbridge Gerry proud. While not as artful as his salamander it accomplishes the same purpose, politicians skewing the electorate to ensure the victory of their own party.

And Governor Pritzker showed his true colors. He had repeatedly promised to veto any maps drawn by state lawmakers for their own benefit. But he signed off on Democrats' partisan legislative and judicial redistricting plans.

Am I surprised? Not really. Show me an honest Illinois politician and maybe just maybe we can get the Feds from prosecuting and jailing you all.

With that said, if this map is ratified I will contribute and work vigorously for candidates who are in favor of a honest map that allows the people to select their representatives as opposed to a map that manipulates the electorate to meet the goal of the party in power.
